

Treetops to Rooftops 5K 10/04/2009

by Irvin M. Miller

Thanks To Directors Mary Phillips and Susanne O'Neil and support of the Mid Hudson Road Runners Club, the run across the longest pedestrian bridge was a fun and memorial day for everyone. There was some confusion at the finishing line with runners switching chutes, but we tried to use mathematics and plain old detective work to sort things out with the help of over 100 runners who submitted their times. The mathematics helped us identify Emily Ferreri as the winner of the women 12 and under. Sleuthing on the part of Ken Devries using my Youtube video and Bob Kopacs photography was able to sort out the women winners in the 50 to 59 category. Below are the pictures that helped us.

On the bridge towards the finish line.

We have tried to insure that awards are being given out correctly. Because of lane shifting in the chutes, we have tried to do our best.
